Summary

I'm a passionate **Full Stack Developer** with hands-on experience building **secure, scalable, and user-friendly web applications**. Skilled at crafting **responsive interfaces** with **React and TypeScript** and building **RESTful APIs** using **Node.js, Express, and SQL**. I've built and deployed full-stack projects featuring **authentication, role-based access, and real-time communication**. With **5+ years** of customer service experience, I bring strong communication skills, empathy, and a user-first mindset. Currently completing my **B.S. in Computer Science** (expected **May 2025**) and seeking a frontend, backend, or full-stack developer role. **Portfolio:** uynvu078.github.io/Portfolio-UyenVu
